

LUCA DELLANNA

Luca has over 12 years of experience helping business leaders increase profitability through better people-, operations-, and risk- management.

Trusted by leaders at...

McKinsey
& Company

COMMON PROJECTS

Leadership Excellence Guidance

Luca partners with senior leaders on a retainer basis, consistently improving leadership capacity, team dynamics, business performance, and personal and professional growth.

Leadership Workshops

Ad-hoc sessions where we work on concrete problems affecting a team. Luca will teach skills, help prioritize action, create alignment, and overcome bottlenecks.

Change Initiatives

Luca provides expert guidance to bulletproof projects aimed at installing a new organizational culture or adopting new ways of getting things done.

Managerial Assessments

When new top management sets in, Luca helps them get an overview of their organization's problems and opportunities with regard to the skills, attitudes, and culture of local management.

WORKING WITH LUCA

No waste of time

We are all busy professionals. I won't schedule unnecessary meetings or otherwise waste your time or that of your team. When recommending actions, I strive not to add extra items to your (or your team's) busy schedule but rather help you get the most from what's already on it.

Concrete expertise

I have deep operational knowledge and deliver practical solutions that resonate across all organizational levels – from the C-suite to supervisors and front-line staff. This holistic approach ensures changes actually work on the ground.

Fast results

Thanks to my expertise and being a team of one, I can start projects and deliver results much faster than larger consultancies.

Care

When I undertake a project, I care a lot – not just about delivering results but about helping the people I work with grow personally and professionally.

LUCA'S EXPERIENCE

Work experience

- 12 years of experience in managerial consulting (first with DuPont's consulting unit, then independently)
- 10 years teaching risk management and related subjects at the University of Genoa (as an external lecturer)
- Reputed expert on ergodicity and risk management
- Previously led a group of 40 people
- 11 books published

Competences

- Fluent in EN, IT, FR, ES
- Master's degree in Mechanical engineering
- Previous projects in the following industries: automotive, chemical, pharmaceutical, logistics, agricultural, fast-moving consumer goods, food, finance, fintech, tech, software, electronics, retail, hospitality, and consulting

MY REPERTOIRE

In addition to tailored consulting engagements, I also have a wide repertoire of workshops, courses, speeches, and training materials I frequently deliver or license, including:

- Leadership, managerial excellence, and operational excellence
(including my “Antifragile Organizations” course and my “Effective Delegation” workshop)
- Managing Hybrid and Remote Teams
- Ergodicity and risk management

LARGE-SCALE PROJECTS

If you are interested in working with me but require more on-premises support than a single person could provide, I often partner with a trusted US-based boutique consultancy, which I could introduce to you. I am also open to working together with any consultancy team you might have engaged, or supporting you in selecting the right one.
